Achievements / Outcomes

- **Quality Education**

The institute helps students to realize their goals in life by developing their personalities from all the dimensions. The inaugural Havan Yajna was performed to start the session with divine blessings. Events like Tree plantation drive, Nukkar Natak “Vahngi” and Swachhta Abhiyan inculcated a sense of social responsibility among students. Events like Personality Development Camps help them grow morally. Office bearers and volunteers

of different Committees, Clubs and Societies performed their duties to the best and developed the qualities of leadership and management. They availed the given opportunities to the best of their abilities and proved a great asset.

- **Empowerment of Women**

The institute strongly lays emphasis on women empowerment as investing in women by imparting higher education can unlock human potential on a transformational scale. Extension Lectures and Seminars were organized by various departments and Career Counselling cell. To strengthen the character, Moral and Vedic Education tests were conducted. The first week of March was celebrated as Women Empowerment Week. During this week various events like Mahila Jagriti Rally, Cooking classes, Computer classes and competitions of Essay Writing, Poster making, Slogan writing, Poem recitation etc, were organized. The Department of Hindi with support of other departments celebrated this week as 'Veerangana Shakti – Astitva ke Ehsaas Ki'. Legal Literacy Club organized an awareness camp in which rights as a voter were discussed in detail. The department of Fine Arts with department of Home Science organized a seven-day Art and Craft workshop and exhibition on the theme – 'Karmika – a step towards self esteem'. An on-line national painting competition on the theme 'Beti-Bachao-Beti Padhao' was also held and this initiative was highly appreciated.

- **Inclusive Education**

The institute provides ample opportunities to the students to grow by providing atmosphere conducive to all round development. Talent Hunt was organized. Days of historical / national / international importance were celebrated i.e. Red Cross Day, World Aids Day, NCC Day, National Unity Day, Sports Day, Hindi Divas, International Day of Yoga, Rishi Bodh Utsav etc. Besides this, there is a long list of events and activities conducted at college level. Our Yoga Champions won I Position at International Level, Our NCC Cadets bagged 23 Medals. Our students won 20 prizes in Zonal Youth Festival. Our students attended a seminar on Drug Abuse in which 'Drug Abuse Prevention Officers' (DAPO) were appointed. Students participation and achievements in such activities actually play a vital role in preparing them to face the challenges of life.

17. Does the Institution have Management Information System?

Yes

If yes, give a brief description and a list of modules currently operational.
(Maximum 500 words)

The institute has a Management Information System. The Management Information System includes top management i.e. DAV College Management Committee, New Delhi and Local Managing Committee as well. DAV College Managing Committee, New Delhi is one of the largest Non-Govt. Managements running many educational institutions imparting quality education. From time to time, information regarding achievements and challenges of the institute is shared with DAV CMC, New Delhi. Sending Annual Report to the management is a regular feature. The Local Managing Committee comprising members also plays a vital role as important issues like budget allocations, future plans etc. are discussed and certain decisions are taken in such meetings as well. The members of the LMC are invited to attend the college events and activities. They grace the occasions with their presence to the college authorities. Their valuable suggestions are appreciated and implemented. The Principal is the live link with top Management, Local Managing Committee and faculty members and students.

- The college works under the aegis of central body, DAV College Managing Committee, New Delhi. This being one of the best organizations in the country where an environment of high standards in all aspects prevails. The central management holds regular meetings with the Principals alongwith other members of general body termed as General Body Meeting. The agenda of the meeting is to enable Principals and other members to go through the details and discuss any point during meeting if desired.
- The guidelines on various decision making processes are also provided by the central management through Director (Colleges), General Secretary & President of the management time to time through correspondence.
- Dynamic in leadership and progressive in vision management provides guidelines for the short term and long term administrative affairs of the institution by keeping constantly in touch with the Principals through e-mails, meetings and contact programme.
- Principal and staff members with all their integrity abide by the guidelines of the central management to ensure smooth functioning and healthy growth of the college.

The Local Management

- Local Management termed as Local Advisory Committee consists of Chairman, Principals of DAV institutions in campus, renowned social activists, benevolent donors,

members of the founding family of the college, Doctors, Arya Samajis, Entrepreneurs and two elected members of staff. The team of three years is the timeline and after three years if required few necessary changes are made in consultation with the Chairman.

- Local Advisory Committee is the governing body of the institution at local level. The regular & importance of this body is budget meeting, that is held every year to check and pass the annual budget of the college before the end of financial year.
- Chairman & members of the committee also meet time to time to discuss plan for appointments, organizing functions and to help and guide institution for rapid growth and progress.
- The minutes of the Local Advisory Committee are always forwarded to DAV College Managing Committee for information and approval.
- Chairman and members of Local Advisory Committee are invited to all the important functions of the college.

Principal and Faculty

- The Principal of the institution is at the pivotal position in the college. The directive and guidelines of the managements are well conveyed to the faculty by the Principal. The long term plans and short term plans are charted out and executed effectively and goals are achieved through collective efforts.
- The college works under the guidelines and bye laws of university. Principal ensures that all statutes and regulations of the university are observed in the functioning of the college.
- The college avails sincere services of the dedicated members of the faculty who provide collective leadership as Dean Student Welfare, Dean Academic Affairs, Dean Youth Welfare Department, Dean Discipline Committee and Co-ordinators of various Study Centres and Cells of college. The members of Advisory committee consisting of senior staff members and academic council consisting of Head of the department also play pivotal role in planning activities, maintaining standards of the college and ensuring healthy work environment for rapid growth of the college.

Part-B

CRITERION I – CURRICULAR ASPECTS					
1.1 Curriculum Planning and Implementation					
1.1.1 Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words					
<p>The institution has the mechanism for well planned curriculum delivery and documentation. IQAC has designed a ‘Course Plan Proforma’ which is provided to all the faculty members before the commencement of classes i.e. during admission days. On the basis of latest curriculum and latest academic calendar, they have to fill up this proforma and submit to the Co-ordinator, IQAC. This proforma is designed in such a manner that the faculty members have to plan the month-wise curriculum coverage. They also have to mention the teaching methods, they will be using while teaching. Then another important column to be filled is about the learning of the students. Thus, teaching-learning process is planned beforehand to make it effective and student-centric. Keeping in view the academic calendar, month-wise, tentative allocation of periods is also to be mentioned, thereby giving a clear idea of course to be covered. It definitely provides an opportunity to both the teacher and the taught to have sufficient time for interactions, group discussion and inquiry based learning etc. Proper time is given to the students for assignment preparation. After the evaluation of assignments and other tests, revisional and useful tips are given from the examination point of view. This course plan also helps to maintain uniform pattern in all the sections of compulsory subjects. Timely self-checking of this filled course plan proforma helps to cover the curriculum well in –time which is beneficial for the students. They definitely get time to clear their doubts and queries. They are quite confident at the time of examination.</p>					
1.1.2 Certificate/ Diploma Courses introduced during the Academic year					
Name of the Certificate Course	Name of the Diploma Courses	Date of introduction and duration	focus on employability/ entrepreneurship	Skill development

1.4 Feedback System					
1.4.1 Whether structured feedback received from all the stakeholders.					
1) Students	2) Teachers	3) Employers	4) Alumni	5) Parents	
Yes	Yes	Yes	Yes	Yes	
1.4.2 How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)					
<p>The purpose of taking feedback from all the stakeholders is to improve the functioning of the institution. Though the GCAM family does its best at all levels yet we strongly believe that there is always scope for further improvements. With an objective to make an assessment of the teaching-learning process, evaluation system, student support services and other facilities provided to students, feedback proformas are given to them to gather feedback regarding the overall functioning of the institution. This feedback proforma comprises 4 questionnaires based on feedback on (i) courses (ii) teachers (iii) overall evaluation of Programme and Teaching (iv) overall rating. After getting feedback proformas back, analysis is made on the basis of remarks given by them. This feedback is analysed and discussed and corrective steps are applied wherever necessary. The findings are quite positive till date as majority of the students appreciate the overall ambience of the institution. Besides the positive outcomes of teaching-learning process, they give positive remarks to the fair evaluation system. They are satisfied with the support services like library facilities, co-curricular activities, interaction with faculty and administration as and when needed. Majority of them have expressed that they are not only intellectually enriched rather they find themselves fully equipped and empowered to face the challenges of life. Formal as well as informal feedback is gathered from other stakeholders as well. Feedback from employers and teachers is gathered during the meetings formally and informally from time to time. Feedback from the Alumni is also gathered during their visits to college in functions like Prize distribution, Convocation etc. There are certain students on rolls whose mothers are the Alumni of the college. This clearly reflects their trust in the college – the best in the area. Informal feedback is gathered from the parents also either they are invited to attend the college events or when they are contacted personally to discuss the performance of their ward. The feedback obtained from all stakeholders is being analysed and utilized for the overall development of the institution. On the basis of such feedback and suggestions, this year two new PG programmes – M.A. Punjabi and M.Com. are introduced. The valuable opinion and suggestions of all the stakeholders are considered and implemented as and when it is feasible. Keeping such suggestions in view we are planning to start some vocational courses from the coming session. Thus feedback is a common but powerful tool that actually gives us direction to move ahead in the right manner.</p>

2.3.2 Students mentoring system available in the institution? Give details. (maximum 500 words)

IQAC contributes a lot to improve teaching-learning process by adopting a number of measures as part of the mentoring system. The faculty members prove good mentors as they take the process of mentoring the students with a sense of responsibility. They encourage the students to empower their own strengths, beliefs and personal attributes. The faculty members are always willing to share their skills, knowledge and expertise. By taking personal interest and by demonstrating positive attitude, they act as positive role models. The faculty members listen to them patiently and carefully first, then ask and afterwards the process of counselling or giving advice takes place. This indeed, leads to a good mentor-mentee relationship which establishes a congenial environment. Besides this, every curricular and co-curricular activity of the institution focuses the students as they are our greatest asset. The students are guided, motivated and are made to develop positive thinking to enable them to face the challenges of life. Every necessary effort is made by the faculty to develop their skills of interactive learning, collaborative learning and independent learning. Before the commencement of the classes, on the basis of Academic Calendar provided by Panjab University, Chandigarh, every faculty member prepares the teaching plan and it is ensured that the syllabus is completed during the stipulated period of time. The faculty members, being mentors, adopt a number of measures to nurture their critical thinking, creative skills and scientific temper in order to transform them into life-long learners and innovators. Though there is a long list of such measures yet a few examples are mentioned here. Various awareness programmes are organized for them. Seminars and workshops are organized to develop their critical thinking. They are encouraged to question and interact with Resource Persons during the seminars. They are also motivated to participate in debates and group discussions. Personality Development Programmes are organised for their holistic growth. They are assigned important duties during the functions, seminars and workshops to ensure their lifelong learning. Moreover, from the time of taking admission till their stay, a number of Academic, Personal and psycho-social support and guidance service are provided to them. At the academic level, students are advised to choose the subjects or stream depending upon their aptitude and capability. At personal and psycho-social level, Dean, Student Welfare addresses and finds a solution to their problems due to domestic and societal reasons. Guidance services are provided to the students who are interested in sports and other co-curricular activities. In this manner, the student mentoring system of the institution bridges the gap between the teacher and the students and creates a student-friendly environment in the institution.

2.5.2 Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

The institution is keen on monitoring the performance of the students and Continuous Internal Evaluation (CIE) is an integral part of teaching-learning process as it aims to assess all aspects of students' development on a continuous basis. The institution has initiated some reforms on Continuous Internal Evaluation system like continuous internal evaluation is done on two fronts – Curricular front and Co-curricular front. Weekly tests, Unit tests and Monthly tests are conducted. Besides this, Oral tests, Surprise tests, Group Discussions and Home Assignments determine the progress of the students which is monitored by the teachers. To bring uniformity in the system, the checked tests of the fresh recruited teachers are scrutinized by the senior members of the departments randomly and anomalies are pointed out to them, if any. Special classes are arranged for the slow learners and for those who participated in co-curricular activities. This practice helps the struggling learners to update their subject knowledge and helps them to catch up with their peers. Tests are evaluated and given back with marks, remarks and useful tips for further improvement. Thus Continuous Internal Evaluation is done with sufficient transparency. Results are analyzed and review meetings are held, whenever necessary the teachers recommend the visit of the parents to the college for necessary discussion. On the co-curricular front, students are evaluated at institutional activities and trained to take part at District, State, National and International Levels. Thus CIE is not only regular and planned but spontaneous and learner-focussed also as the objective is betterment and improvement. CIE helps the students to do wonders. In 2017-18, our students have won 29 university positions. Our Yoga Champions have won 1st Position at International Level. Annexure - 3

2.5.3 Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

CRITERION VI –GOVERNANCE, LEADERSHIP AND MANAGEMENT
6.1 Institutional Vision and Leadership
6.1.1 Mention two practices of decentralization and participative management during the last year (maximum 500 words)
The college tries to maintain a democratic setup. It is divided in to different units. Each unit is given reasonable and deserved freedom to operate for the betterment of the institution. However it operates through a structured organization for smooth and disciplined functioning. Each unit has to maintain a code of conduct. The following chart provides glimpses of participative management.

The second such practice includes the formation of various student bodies and committees were formed for their active participation as well. This practice, indeed, leads to the maximum and optimum utilization of the human resources. The institution is committed to provide democratic environment to its students with right combination of facilities and facilitators, opportunities and ambience for their support and progression.

7.2 Best Practices

Describe at least two institutional best practices

Upload details of two best practices successfully implemented by the institution as per NAAC format in your institution website, provide the link

Best Practice – I

Title : To bring deprived strata of society in the arena of education

Goal:

(a) Extensive outreach programmes

Though we are living in a competitive world where market trends occupy great significance yet the moral and ethical values should never be lost sight of. It is our moral duty to educate the deprived strata of society. There is a dire need to bring SC/BC/OBC and other minority communities residing in border and backward areas in the arena of education and make them self dependent so that they can contribute in the nation building. To achieve this aim, an extensive outreach programme is designed by our institution to reach every nook and corner of nearby, remote and border villages to contact and encourage the students of depressed classes to aspire for higher education.

(b) All Round Personality Development

To develop all round personality of the students, various personality development camps are organized in the college premises. Students are encouraged to intermix for inclusive growth. Special attention is paid to impart self defence training to girls for their safety and security. It helps to build their confidence and makes them more focused and disciplined and the students are trained to react with defensive measures. The girls are encouraged to participate in sports and cultural activities for their multi-dimensional growth.

Context:

The institution firmly believes that it is our first and foremost duty to educate the girl students of the deprived section of the society and the institution has accepted this challenge with full responsibility. Convincing such students about the importance of education leading to awareness of their right to education, social concerns, legal rights is a Herculean task. The girl students find it rather difficult to face the challenges posed by our social system. But our faculty makes sincere, whole-hearted, relentless efforts to ensure the success of the mission. The institution firmly believes that there is an urgent need to address the female students about their safety and security. The institution believes in creating confidence amongst the students by helping them to overcome fear which in turn makes them stronger and better persons and leaves them with a sense of accomplishment.

Practice:

"Village to village, door to door" – this programme is taken up by the institution with full zeal and enthusiasm. Principal and co-ordinator of the programme, Mr. Raj Kumar Ahuja divide the staff into various groups which visit the allotted area. They contact the Gram Sabhas, Gram Panchayats, Principals of various schools in villages, Sarpanches and other elderly people of the village and with their cooperation staff carries out group contact programme or door to door contact programme as per the need of the area. Thus our institution ensures that we personally reach to as many as aspiring young girls and ensure that they are provided all the desired facility like transport at their doorsteps, financial assistance through various government and college level schemes so that they are able to study without any hindrance. Thus, we not only provide academic education to the girls of the deprived classes but also ensure their all round personality development. As a result, the number of SC/OBC and students from economically weaker sections of rural and border areas background has increased in large number in our college. We take pride in the fact that our few students are 'First Graduates' of their families. Thus our institution is doing marathon effort to spread the light of education to the families those were till date deprived of it. We convince the students to join the institution where a wide range of courses and courses on different streams are offered to them depending upon their ability and aptitude. Students of commerce streams are easily absorbed in banks, insurance companies and business houses. Students of BCA

(Bachelor in computer Application) even stand still brighter chance in career options. Every institution, every office, every business house is fully computerized and they need students having knowledge of this modern technology. Besides BCA, Computer Science as subject is also introduced at undergraduate level and its combination with Mathematics provides the students with wider career options. Students are given the facility to use the computer labs even after college hours. Needy students are provided free coaching by the teaching faculty. The institution adopts the meritorious students. Such students are given financial assistance in the form of stipends, freeships and scholarships in collaboration with the state government, university and the privately funding bodies.

Evidence of Success:

Following table will indicate the success achieved during the last two years in the achievement of the institutional objectives as well as contribution to the quality improvement of the core activities of the college.

Year	2016-17	2017-18
No. of students from deprived classes	796	752

Problems encountered and Resources required:

Convincing the parents of girl students to be brought in the arena of education is the major challenge which the institution faces. It is a difficult task as the safety of their wards that are living in the four walls of their homes has to be ensured. To achieve this, local village help is taken. Village jeep drivers are contacted upon whom the parents rely the most. Drivers, "The driving force" works as the stress relievers for the institution. Regarding the resources, grants from UGC are of immense help. Though difficult, yet we have accepted this challenge by generating resources in the form of donations and contribution from the faculty and exploring all government scheme related to SC/OBC student Welfare. This is our mission and its completion is ensured in all respects.

Best Practice – II

Title : To avail Transport facility

Goal:

The main goal of the institution is to cater to the needs of the girl students belonging to rural, border and backward areas and provide them quality and value based education. Taking into consideration this aspect, the institution has designed a network of transport facility to be made available to each and every student of the neighboring and far-off villages. It is the utmost duty of the institution to provide security and better atmosphere to the girl students. Staff member too avail of this facility. Special concessions are given to such students who are meritorious but not economically very sound.

Context:

The institution attracts students not only from the nearby and far off villages to receive education but also from the nearby cities as well due to the availability of courses in Honours in English, Punjabi and Commerce and PG in English, Punjabi, Commerce and Economics. Otherwise students of the concerned cities were left with no option but to move to big cities or state capital. Such students face a lot of problems waiting for the local buses, overcrowding at peak hours and not very safe environment for the girl students. Hence, the institution has made this facility available to the students with its reliable and accountable staff in the larger interests of the students.

The Practice:

Buses and jeeps are maintained properly. Behaviour of the conductor and driver is regularly watched and they are accountable to the Principal of the institution. Any problem faced by the students while commuting is immediately addressed and redressed. Initially the number of vehicles was 1. At present 1 bus, 1 mini bus 10 vans and 14 jeeps are hired by utilizing the services of jeep drivers belonging to particular villages from where a large number of students come to receive education.

Evidence of Success:

Initially, the college started with one bus to bring students. Increasing strength and demand the number of

vehicles has increased to a big number which in itself is an evidence of the success of the practice followed by the institution. In the near future, the number of vehicles would be increased on the demand of the students.

Problems encountered and resources required:

Due to paucity of funds the institution is not in a position to purchase all the vehicles to meet the requirements and needs of the students. But the institution hires the vehicles and most important vehicle drivers belong to those villages from where our students come. Infact, parents of students feel more secure sending their wards with these drivers. However, problems do crop up in connection with the maintenance of the vehicles, but these are solved immediately and at the earliest. We are committed to provide transport to our students to the nearest point of their home on no profit no loss basis. All the drivers are strictly instructed to abide by the traffic and road safety norms to provide safe journey to the students.

7.3 Institutional Distinctiveness

Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust
Provide the weblink of the institution in not more than 500 words

The institution aims to empower the girls through active participation in various activities with dignity and confidence, to prepare and enable the students to face the challenges of life by making them conscious of their rights. Keeping the vision, priority and thrust in view, an initiative has been taken to celebrate Women Empowerment Week from 01/03/2018 to 08/03/2018 having theme 'Veerangna Shakti – Astitva ke ehsaas ki'. Mahila Jagriti Rally was organized successfully with the awareness message on Posters as well as Slogans. The celebration continues to be successful in disseminating practical knowledge in the form of cookery classes. During this week, Poster Making, Declamation, Slogan Writing, Poem recitation, poem writing and essay writing competitions were held. Keeping in mind the importance of technology and computers, students were given the opportunity to enhance their knowledge in one-day workshop. This initiative bears testimony to the vision of the college i.e. the institution strongly believes in imparting quality education to the girl students and inculcates quality of leadership, competence, excellence and self-confidence to enable them to regenerate the society which has posed challenges for them.

8. Future Plans of action for next academic year (500 words)

- To start vocational and value-added courses within limited infrastructural and financial resources
- To develop research culture and motivate faculty to do research work.
- To inculcate Inter-disciplinary approach among students.
- To organize more and more programmes related to women empowerment
- To raise financial resources of the institution
- To provide e-books and e-journals to our students in library
- To organize more social awareness programmes
- To explore more avenues to provide scholarships to students
- To carry out extensive outreach programme to cover more villages alongwith the adoption of a village if possible.
- To organize workshops to improve communication skills
- To train the students to be true agents of change, sustainable growth and peaceful co-existence
